

PROJECT - ROPE ACCESS

# COMMUNICATIONS TOWER UP- GRADES - ROPE ACCESS

## SCOPE OF WORK

Haztech Solutions were engaged to complete communication tower Electrical Upgrades. The scope of work included Installation of Communication Equipment Cabling and Signalling Systems including testing, hook up and commissioning.

### THE CHALLENGE

Time critical scopes, undertake in a remote location. The scope of work required highly sought after Rope Access Electrical & Communications technicians that were generally not readily available through traditional supply chains.

### SOLUTION

HazTech's deployment of rope access electrical & communications technicians services provided an integrated offering which allowed our client to reduce number of resources which further reduced risk whilst accelerating schedule.

### KEY BENEFITS

- Multi-skilled workforce reduced personnel on site
- Ability to react quickly to customer needs on site
- Reduction in supplier interfaces through ability of one supplier to provide integrated solutions
- Removed potential dropped objects found during execution.

# EXXON MOBIL - BASS STRAIT OFFSHORE COMMUNICATIONS TOWER UPGRADE

Haztech Solutions were engaged to de-commission and remove redundant communications infrastructure and install new communications equipment on a major offshore installation.

## EXECUTION

HazTech's deployment of IRATA Certified Rope access Electrical & Communications technicians provided an access solution that allowed the client to complete the works in a safe and timely manner with limited impact to communications onboard.

*"HazTech Solutions are a recognised leader in the provision of specialist electrical industrial services".*
